

Team up with us!

- Share insights in design phase
- Better solutions for limited space and weight constraints
- Share ideas when project requirements are changing
- Feel at ease with a reliable partner

Who we are

- Passionate about improving quality of life
- Team of innovators and engineers
- Expertise within mechatronic solutions

How we work

1. Pre study

Identifying need
Collect data
Analyse demand

2. Concept

Develop and design
concept prototype

3. Design

Building
Testing
Evaluating prototype

4. Manufacturing

Production and
product cycle
management

Customized
motion solutions
for
manual
wheelchairs

We provide solutions for motion challenges

Actuators
- perfect for leg rest or

Actuators
- powerful and compact

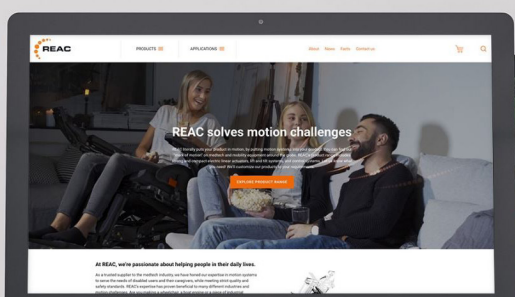

Tilt in space

Control systems with
customised hand controls
